# Lift-Off System

*The Multiquip Lift Off system is an innovative new product that will provide you with the ability to lift and load items up to 1,500 pounds into your truck bed.*

This unique system is simple and easy to use. It infinitely provides more versatility than truck-mounted cranes or lift gates. During the work week you can use it to load compaction equipment, concrete finishers and other work material. When the weekend comes, the Lift-Off will easily lift watercraft or ATV's in minutes.

Load and unload pallets easily. Special decks can be created to handle other items.
